Subject: Re: Approved research from HBMRF

Hi Kathryn,

Dr David Barry has asked if I would let you know of the approved research: Recommendations moved last evening 24th February 2014. (Hawke's Bay Medical Research Foundation Inc).

1. Bernice Gabriel: 'An analysis of the mechanisms of change in families participating in the Fostering Security Training Programme for Caregivers'.
2. Dr Sarah Currie: Reducing the burden of asthma in Hawke's Bay and New Zealand.
3. Dr Emma Merry: 'What are the barriers and enabling factors affecting motivation to teach in the clinical environment of Intensive Care in New Zealand.'

Kind regards.

Judy Baxter (Secretary) HBMRF
