Instructions for using a 3 in 1 Commode at home

To adjust height:

- Push in the metal buttons on the leg
- Set legs at height to suit the person using the commode
- Click the buttons into the correct holes
- Make sure all four legs are the same height
- One leg has extra holes—this is used to adjust the stool for uneven surfaces.

**MAXIMUM WEIGHT CAPACITY IS 113KG
DO NOT USE THE COMMUNE IN THE BATH OR SHOWER**

To use:

As a toilet frame:

- Lift up the toilet seat and lid, these may need to be removed
- Place the frame over the toilet
- Ensure splash guard is in place and will not stop flushing of toilet
- Back bar can be removed.

As a bedside commode:

- Position the commode against a wall for maximum safety and ensure it is convenient to the bedside and ensure the bucket is in place
- Ensure back rail is fitted.

ALWAYS USE TWO HANDS TO PUSH OFF THE COMMUNE AS IT COULD TIP
