## SPECIALISTS IN SAFETY SURFACING

Matta Products is a leader in the design and manufacture of safety surfacing systems for the industrial and leisure markets worldwide.

Our Play MATTAs™, Work MATTAs™ and Sports MATTAs™ brands represent high quality and hard wearing products with proven health and safety benefits; our investment in, and commitment to, recycling means they are also an environmentally responsible choice.

**For children around the world, whatever their age or level of ability, Play MATTAs™ is a fun and safe surface to play on; but its benefits extend well beyond the surface – Play MATTAs™ is a fully compliant, quality product that will protect your playground investment, now, and into the future.**

### PIONEERING RECYCLING TECHNOLOGY

Matta Products is committed to ensuring Play MATTAs™ – and our other safety products – are environmentally sound choices. We understand the importance of long-term resource sustainability and are determined to promote and expand our significant recycling effort; the mission for Matta Products is to protect people and their property as well as the finite global resources we all share. The rubber and PVC feed stock for the majority of our products is 100% recycled – and our products can be recycled in their turn – we utilise waste, giving it new life as a range of durable, high quality safety surfacing products that we are proud to put our name on.

### PLAYING SOLUTIONS

**Play MATTAs™ products are used worldwide, in a variety of environments such as: playgrounds, early education and childcare facilities, adventure playgrounds, recreation and fitness centres, sports grounds, schools, tracks, park land, aquatic centres – anywhere that the safety and protection of children and people at play is important.**

### THE PLAY MATTAs™ 'FAMILY'

- **Play MATTAs™ Original:** Top performing, fully compliant playground safety surface with choice of shock pads and high level of impact protection.
- **Play MATTAs™ Safety™:** Grass retention for recreational and sports areas. Used with shock pads for increased impact protection around play equipment.
- **Play MATTAs™ Kidz™:** Versatile indoor safety flooring with smaller tiles and open or closed surface options. Suitable in lower impact, wet or dry situations.

### PLAY MATTAs™ KIDZ™ SYSTEM INSTALLATION

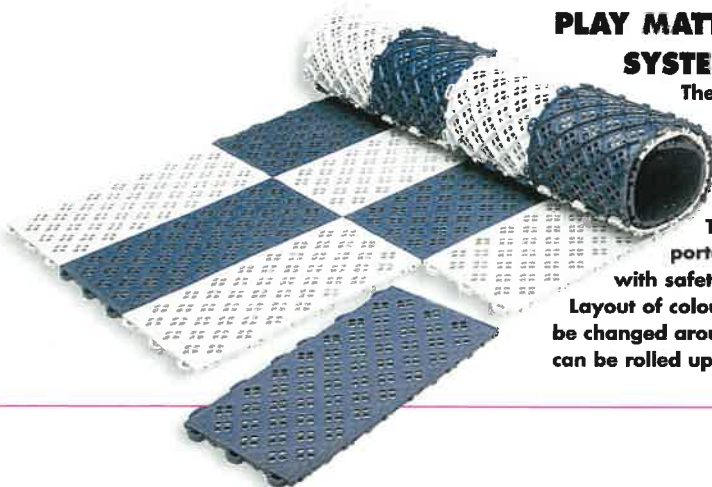

The existing flooring surface (such as concrete, wood or carpet) can be covered directly with the selected Play MATTAs™ Kidz™ tiles.

The installation can remain portable or be secured in place with safety ramp edging if required.

Layout of colours and floor area can be changed around and, if not secured, can be rolled up for cleaning or storage.

## VERSATILE SAFETY FLOORING

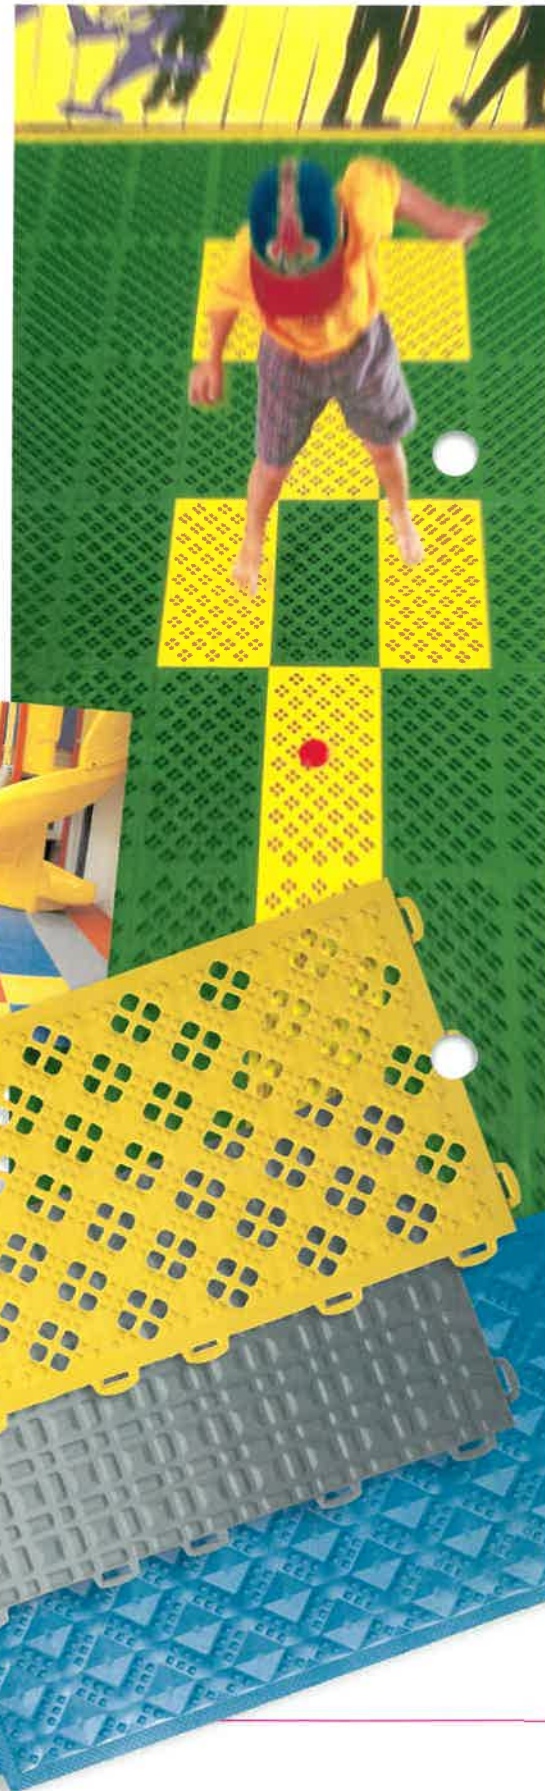

### DURABLE INDOOR IMPACT PROTECTION

Lightweight Play Matta™ Kidz™ tiles are half the size and thickness of other Play Matta™ tiles and can be installed in layouts to suit most lower impact play areas; systems are easy to move around – changing the safety surface shape or colour pattern to provide play environment variety; and interlocked tiles, if not permanently secured, can also be rolled up for cleaning, moving or storage.

The low profile of the Play Matta™ Kidz™ tile plus compatible safety ramp edging – available in black or high-visibility yellow – makes it easy to enter and exit the tile area. Play Matta™ Kidz™ Smooth Top tiles are perfect for safety flooring in environments such as childcare facilities, where hygiene is a priority and children's hands may be in direct contact with the floor. Play Matta™ Kidz™ closed surface tiles have a Diamond Shield tread option for areas where more traction may be required. Open surface tiles are free-draining and anti-slip, ideal for wet areas such as around pools and in changing facilities, and can be used together with the Smooth Top and closed surface tiles.

### PLAY MATTA™ KIDZ™ BENEFITS

- Compliant indoor safety flooring
- Environmentally responsible choice
- Durable & safe recycled materials
- Open & closed surfaces, wet or dry conditions
- Permanent or portable modular system
- Hygienic & easy to clean
- ISO certified quality assurance
- 3-Year Warranty
